How Safe Place® Makes a Difference

Safe Place is a national youth outreach and prevention program for young people under the age of 18 in need of immediate help and safety. Safe Place partners with local communities and more than 22,000 business sites to offer help. During a crisis, youth can enter a Safe Place location with the designated symbol of safety or use TXT 4 HELP. TXT 4 HELP connects youth immediately to a mental health professional via text. Having a safe place for youth to go the first time they leave home or when in crisis prevents the likelihood they will end up "on the streets" or homeless for longer periods of time. A safety net for reaching and connecting to youth in crisis has always been a vital need and it is even more critical now.

How Your Support Makes a Difference

- Allows youth who are being trafficked to walk into a Safe Place® site and escape their traffickers, receive services, and be connected with family and a safe living environment
- Provides a safe place where youth kicked out of their home can go to access shelter so they do not have to stay on the street or engage in unhealthy behaviors for survival
- Provides youth in emotional or mental health crisis an immediate, confidential way to connect with a mental health professional without the need for an appointment or insurance by using TXT 4 HELP
- Ensures all youth in crisis have somewhere to go and someone to help

After running away from home, Jordan was quickly taken by traffickers to another state. When the traffickers stopped, she recognized a Safe Place® sign and was able to ask for help. She was provided a safe location until help arrived. She was escorted to the local youth shelter. The police and her parents were contacted. Jordan's parents cried with relief and drove immediately from their home state to pick her up. Jordan and parents were grateful to be reunited. The thought of what could have happened to Jordan without Safe Place is terrifying.
